📇 Summary

Creative and Enthusiastic grad student pursuing Masters of Science in Computer Science, seeking to gain new experience to expand my knowledge and skills and apply it to every challenging problem to give a great performance in every opportunity and also I have more than 3 years of work experience in Front end development. Extensive experience in HTML5, CSS, SCSS, Bootstrap, Highcharts, Handlebar, Grunt/Gulp,JavaScript, jQuery, JSON, Ajax, W3C Standards ,NPM, React, Responsive Web Development. Have some knowledge and worked very little in WordPress, Google Cloud, Google tag manager, Adobe Targets, AWS, firebase, and Photoshop. Hands-on experience in implementing website structure and navigation layout on various platforms and devices. Always ready to explore new platforms and work on them. Good experience working in a team and providing a quality product to the client.

💼 Professional Experience

03/2022 – present
Los Angeles, US

Graduate Student Assistant at Office of Graduate Studies
California State University, Los Angeles
I am working as a Thesis Reviewer at the Office of Graduate Studies at California State University, Angeles.
My work is to review the thesis of the students. Mainly I check the format of the thesis which is in Microsoft word and pdf and email them the correction which they need to do. Meet students over zoom and review their thesis.

06/2022 – 08/2022
Los Angeles, US

Student Assistant at Office of Graduate Studies
California State University, Los Angeles
I worked as a Student Assistant with the Office of Graduate Studies for the summer. As a student assistant, various tasks are assigned to me like answering phone calls, and emails and also making flyers, spreadsheets, etc.

05/2021 – 01/2022
Pune, India

Programmer Analyst
Cognizant
O2 Project -- O2 is a cognizant client and the project involves the development of the front end using HTML, CSS, Javascript, JQuery, GIT, and Adobe Target.

05/2019 – 05/2021
Mumbai, India

Associate Interface Developer
Digitas India
DMI Project - The project involves the development of graphs and frontend using HTML5, CSS3, Jquery, Highcharts, GIT, and Handlebars.

06/2018 – 02/2019
Mumbai, India

Software Engineer
Motes & Bots Technologies
Smart Office Project-- The project involves a dashboard for Office. In which admin can log in and allow to register only those who have rights. It contains various modules like Add Employee, Manage Group, Manage Logs, and Access Rights. It also includes CRUD operations of employees. Technologies Used -ReactJs, Firebase, NodeJS, HTML, CSS, Bootstrap.

07/2017 – 06/2018
Bangalore, India

Intern
Textron
Request Tracker Project-- The project involves tracking requests so that the current status of a particular request will be known. Technologies used - C#, HTML, CSS, SQL Server. This was my final year MTECH project & I had been part of this project during my internship.
